WeDo 2.0 Quick Start Guide

Step 1: Unpack and Get Organized

1. Unpack your WeDo 2.0 set.

2. Stick labels onto the wall of the sorting tray and sort all of the LEGO® elements in the appropriate sections. The lid card shows a visual of how we recommend labels and elements are organized.

3. We recommend you number each box and the WeDo 2.0 Hub to help with classroom management.

4. Please remember to insert batteries into the WeDo 2.0 Hub. If you have bought the WeDo 2.0 Add-on Power Pack, please remove the battery house from the WeDo 2.0 Hub and replace it with the Add-on Power Pack.
Step 2: Teacher preparation

1. Download the WeDo 2.0 Software or app at LEGOeducation.com/downloads

2. Watch the Introduction video on WeDo 2.0 inside your software. Click the play button on the video in the opening screen.

3. Find the Teacher’s Guide in your software - also available online. Click on the menu in the top right corner and select Teacher Guide. See the table of contents to guide you in getting started.

Step 3: Classroom Preparation

1. Complete the Getting Started activities to build and program the Science Rover model "Milo". Click on the book image to open a new image and then select Milo the Science Rover.

2. Join the conversation and get inspiration from other teachers in the LEGO Education communities on Twitter or Facebook.
